Dear Parents and Caregivers,

We have been alerted to the fact that there is a shed falling over in a Government Road property which backs on to the church car park.

Council and the Environmental Protection Authority have been notified as the shed was supposed to be removed during the holidays.

The weekend winds raised concerns about the shed and as a precaution we kept the students in classrooms all day today. As they arrived at school they were sent straight to their classrooms.

We will continue to do this as a precaution until we are advised otherwise by the correct authorities.

We have also roped off part of the top carpark so please DO NOT drop your child off here. Please drop them off in Wahgunyah Road and they can walk straight to class through the bottom gates.

Thank you for your support,

Helen Bourne
